Strategic Plan 2012-15

INTRODUCTION

Librarians in all types of libraries foster continuous individual discovery and learning and serve an essential function in a democratic society. Serving as the foremost professional organization committed to developing present and future library leaders, LLAMA provides members with knowledge, skills, resources, and tools that help members foster individual and organizational excellence in library leadership, administration, and management. LLAMA and our member leaders at all levels seek to create and develop innovative communities that foster diversity and inclusion. Developing present and future leaders in a holistic manner is part of our commitment to the enduring value of libraries in society and the people and communities we serve.

LLAMA's Strategic Plan 2012 – 2015 focuses attention on three enduring strategic themes that reflect the core purpose and mission of the division and provide a framework for meeting member needs. The themes are: 1) member engagement and value, 2) leadership development and continuous learning, and 3) organizational excellence. Each strategic theme has an enduring goal statement and key objectives

The LLAMA leadership views strategic planning as an ongoing process. With adoption of this strategic plan, the LLAMA Board will work with division-level committees, section-level leaders and committees, and collaborative partners to develop an annual operating plan. The annual operating plan will outline specific objectives, projects, and activities that will be undertaken within a specific fiscal year in support of the strategic themes and key objectives outlined here. Progress will be evaluated annually and this plan will be updated based on accomplishments, emergence of new strategic themes and member needs, opportunities for collaboration, and the environment impacting libraries around the world.
